

NTM Aviation

invites you to an evening with author and speaker...

Gracia Burnham

Martin and Gracia Burnham quietly served God with NTM Aviation in the Philippines. Then, in 2001, they were catapulted into world news when they were kidnapped by violent terrorists. Martin and Gracia remained captive for 376 terrifying days, until Martin was killed and Gracia was freed during a rescue attempt.

The world expected Gracia to be emotionally destroyed by all she suffered. Instead, she chose to trust God and forgive those who took her captive and caused the death of her husband.

A New York Times best-selling author, Gracia's passion for missions shines through each time she speaks about her experiences, offering hope and encouragement to those suffering their own difficulties. As the founder and director of The Martin and Gracia Burnham Foundation, Gracia continues to minister through providing support to Muslim ministries, the persecuted church, tribal missions, and missionary aviation.
